WHEN MARY LED THE HYMN.
I used to go to Church and sit,
Entranced, to hear the singing;
My soul upon the waves of it
Seemed ever upward winging.
I did not hear the organ's peal,
The bass, or tenor slim;
The alto's voice was but a squeal,
When Mary led the hymn.
Her pure soprano, high and clear,
Seemed like a song bird trilling;
It fell on my enraptured ear,
My very heartstrings thrilling.
The world and all its load of care,
Seemed far away and dim;
The pearls of heaven were there,
When Mary led the hymn.
But now, when Mary lifts her voice
To lead, I must dissemble.
The sound that once made me rejoice
Now sets me all a-tremble.
I sometimes beg of her to cease;
She will not hear my pleading;
At such sad times I know no peace,
For I'm the "him" she's leading.
—Brooklyn Eagle.

Mr. James Nicholson leaves today for Minneapolis, Minn., to make his home with his son, who is located in that city. The house he now occupies is one of the oldest in the city, and was occupied by his father, Stroth Nicholson, where a family of eleven children were born and raised. He is 66 years old and Maysville has always been his home.

HUNTING ACCIDENTS.

Two Colored Men Near Minerva Are Badly Injured.

Two accidents among the colored hunters are reported in the neighborhood of Minerva. Scott Marshall, while out with his gun, had his left hand badly crippled.

The barrel of the firearm burst, lacerating the palm of his hand, and the ends of three fingers were amputated by physicians as a result of the accident.

Charles Smith, also while enjoying the sport, was severely shot in the face.

He was engaged in loading his gun, when it went off, the contents of the barrel entering the left side of his face, breaking the jawbone and burning him severely.

PUNISHING MURDERERS.

Colored Killer Gets Sixteen Years, and Another on Trial.

In the Circuit Court the case against William Yarnall, Robert Clayton, and John Boughner, charged with cutting Trainmaster Moriarty of the C. and O. during the Elks Fair of last year, was dismissed because of the non-appearance of the prosecuting witness.

Rafe Spaulding, colored, who shot and killed Jim Mason, also colored, in East Second street nearly opposite the Hall Plow Works a year or so ago, yesterday was awarded a verdict of sixteen years in the Penitentiary.

The case against Tom Page, charged with killing another colored man named Ramsey at a "festibal" near Mayslick, is now on trial.

ON TO HIM.

One of Maysville's Loafers Could Not Break Into the Jail.

One of the city's loafers devised an original scheme to get board and lodging at Hotel McIlvain for the winter the other day, but it didn't work.

The fellow hasn't an Edisonian head, either is he a fool by a long shot.

First he braced Pap Rosser and wanted to be locked up on general principles. Of course there had to be an offense committed before the officer was commissioned to lock anyone up and in this case there had been none, and the ever obliging officer could not comply with the request.

He next visited Judge Harbeson's Court, and smugly being drunk he took a prominent seat and shamming being asleep, hoping the Judge would commit him for contempt of Court. The Judge did not notice him, however, and thus trial No. 2 failed.

As a last forlorn hope he visited Squire Drossel's Court, where justice is weighed out on a hair balanced scale.

Here he acted in a boisterous manner and did many things in hopes of realizing his goal. But it was no use, fate for the time being was against him,—the Squire tumbled to his racket and would not accommodate him and he was again compelled to go forth in the night and buck up against some saloon-keeper for a free lunch and seek his sleeping quarters in some gentleman's stable to shield him from the cold blasts of the winter's wind.

BECAUSE SAMUEL NELSON and MELLIE HARRIS, two young men, laughed at a comedy that was being given in a small Church out in Indiana, they were arrested on a charge of disturbing a religious meeting. They contended that a comedy, even if played by amateurs, is not religious, but they were fined, notwithstanding. Just how they found out that a Church theater could produce anything that was worthy of a laugh is not explained.

It would be unjust, of course, to suppose for one moment that the Kentucky Machine would count a single vote otherwise than as it was cast. The machinists, when they want votes for their side, simply throw out bodaciously the required number of counties that give Republican majorities, without going to the trouble of counting the votes at all. This was done by the Legislative Machine in the Goebel-Taylor contest, when it was charged that "thin ballots" had been used in certain Republican counties, while in Democratic counties the majorities were allowed to stand, although it was shown that the ballots were furnished by the same firm of printers, and that exactly the same quality and weight of paper had been used in both cases.

THE Bureau of Labor has issued a bulletin on the cost of living of workingmen's families, showing that of 2,567 families in thirty-three states, from whom data was obtained, the average income per family was \$827.19; average expenditure for all purposes, \$768.54; average expenditure per family for food, \$326.90, and the average size of family, 5.31 persons. The last figure is seven-tenths above the average of private families in the whole country, as shown by the census of 1900. The food expense is more than 42½ per cent. of the expenditures for all purposes. An extended investigation covering the years 1890-1902 shows that the cost of food reached its highest in 1902, the average then being 10.9 per cent. above the average for the decade 1890-1899, and an increase of 16.1 per cent., compared with 1896, the year of lowest prices. It is announced as a conservative conclusion that the increase in the cost of living, as a whole, in 1902, when compared with the year of lowest prices, was not over 16.1 per cent., the figure given as the increased cost of food, as shown by this investigation. This assumes, of course, always the purchase of the same articles and the same quantities in years of low prices, low wages, and more or less irregular employment, and in years of higher prices, higher wages and steady employment.

A CITIZEN'S STORY.

Told By a Maysville Citizen For the Benefit of Maysville People.

The greatest importance attached to the following is that it concerns a Maysville citizen. It would lose three quarters of its interest if it involved some resident of Kalamazoo, Mich., or Woonsocket, R. I. Like all the testimony which has appeared here, and like all which will follow about the Old Quaker remedy, Doan's Kidney Pills, it comes from residents, fellow-citizens and neighbors. No other remedy can show such a record of home cures. Read this case:

Mrs. R. R. Housh of 394 Forest avenue says: "Doan's Kidney Pills quickly relieved Mr. Housh of backache which had been a source of discomfort to him for some time. I procured the remedy at J. Jas. Wood & Son's Drugstore, corner of West Second and Market streets, and its proven value is so great that it should be known throughout the world."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no substitute.

A letter addressed to him, giving him information, may be the means of saving you several dollars.

R. C. KENNEDY, Southeastern Passenger Agent, Big Four Route, Huntington, W. Va.

FACTS concerning the recent election in Breathitt county are finding their way out to civilization and are enough to make the blood of honest men boil with indignation.

At Frozen Precinct, the largest Republican Precinct in the county, there was a very quiet, orderly election, with a very large vote polled, the Republicans sweeping everything before them, and even the Democrats admitting that the Precinct had given at least 100 Republican majority. Just at 4 o'clock, according to the report, the Beckham soldiers from Jackson marched into the voting room, ordered the Republican election officers out at the point of the bayonet, and proceeded to superintend the count of the vote to suit themselves and the Democratic election officers. They counted all night, but did not announce the result, and carried the ballot-box and returns to Jackson. Several days afterwards it was given out from Jackson that Colonel BELKNAP and the Republican state ticket had carried Frozen Precinct by 94 majority, but that Judge RIDDELL, the Hargis candidate for Circuit Judge, and the rest of the Democratic local ticket, had carried the Precinct by a majority ranging from 40 to 100, which is an absurdity on its face, when practically the only scratching was done by Democrats who voted for BECKHAM and the state ticket and for the Republican candidates for Circuit Judge, Commonwealth's Attorney and county offices. This is a sample of one Precinct in Breathitt county, and others were worse.

THE NEGRO VOTE IN KENTUCKY.

Louisville Herald.

The suggestion that the "Negro Question" be solved in Kentucky by enacting an educational qualification for voters, makes it interesting to know exactly how such a law would affect the whole voting population. An educational qualification would, of course, have to apply to all voters alike. According to the census of 1900, there were 543,996 males of voting age in Kentucky. Of these 469,206 were white and 74,728 were Negroes. According to the decennial rate of increase between 1890 and 1900 the total number of males of voting age now would be 568,475. Of these 490,320 are white and 78,090 are Negroes.

There were in 1900 65,517 white illiterates of voting age, and 36,990 Negro illiterates of voting age. The increase since then is not material, the whites now being about 68,000 and the Negroes about 38,000. Of course, the number of illiterates who do not vote is large, and it is perhaps reasonable to assume that at least 50% of the illiterates of both races do not vote. An educational qualification would leave about 422,000 whites of voting age and about 40,000 Negroes of voting age.

It is a curious fact that, while the total population of Kentucky shows 1 Negro for every 6½ white persons, the ratio of Negro to white voters is 1 to 7½. In the recent election in the cities and towns the Negro vote was well divided. Thousands did not vote at all, in fact, and yet their names were voted for them by hired repeaters of their own race, just as the names of white voters were so voted. It is not probable that 30,000 Negro voters were actually cast in the whole state, and these were not all on the Republican side, simply because no National issues were involved.

The "Negro Question" will not be solved by an educational qualification that will leave the franchise in the hands of 40,000 Negro voters. As a practical question of race prejudice, 40,000 black voters are quite as objectionable as 80,000 black voters. The protest is not against Negro ignorance; there are more white voters in number with the same ignorance; the protest is a racial one, founded upon color and previous class conditions and prejudices. The ignorance and degradation of Negro voters are, of course, much greater in proportion to their numbers than among white voters, but the elimination of both these will not remove the final prejudice of race.

In the Circuit Court yesterday the divorce suit of Essie Crawford against Bruce J. Crawford was dismissed without prejudice.

A suit pending in the Mason County Court between the Auditor's Agent, F. Stanley Watson, against Emma F. Norris as executrix of Thornton Norris, deceased, was compromised yesterday by an agreed settlement, the estate paying \$274.08.

Mrs. Alice Richeson and daughter, Miss Lida, who were to have gone to Sherman, Texas, as stated in THE LEDGER, were obliged to postpone their trip. While they were waiting at the Station for a train, with many friends assembled to bid them goodbye and Godspeed, a telegram came from Sherman announcing an epidemic of smallpox in that city and advising them not to come at present.

Representative Gilbert of Kentucky introduced a resolution in the House Wednesday requesting the Secretary of Agriculture to inform the House whether horse flesh is canned for food in this country.

In order to prevent the extinction of the chamois in the Swiss Alps, a law has been passed in Grisons, Switzerland, prohibiting the shooting of chamois on the mountains. A real chamois skin is now worth \$50.

Of the \$1,636,274 worth of bananas which came into New York City within the last year 2,862,000 bunches were from the British West Indies, 1,152,000 bunches from Costa Rica, 877,000 from Colombia and 355 from Cuba. They pay no duty.

About \$5,500,000 has already been paid in Spanish War pensions; the average yearly value of the Spanish War pensions is \$137, and the average annual value of all the other pensions is \$133, and 804,809 applications for Spanish War pensions await adjudication.

In Australia, under a new law, no contract can be made for the carrying of mails by any steamship line which allows a colored man to work on any of the ships. The mail steamers hitherto have been largely manned by dark-skinned British subjects from India.

In some sections of Texas cotton growing is being abandoned because of the boll weevil pest, and the land is being turned to other crops, while in some cases Texas cotton growers are moving to Oklahoma and Indian Territory, where the boll weevil has not yet reached.

Several officials who had entered the Freeport mines in Mingo county, W. Va., to see if the fire was extinguished had to run for their lives, the fire breaking out afresh on a side entrance. The mines have been afire for more than a year. The loss has been almost incalculable.

London has a new law which might well be imitated. It provides for sprinkling old buildings in process of demolition. It is only surprising that the watering of such buildings during the pulling down process to stop the dust nuisance has not been thought of before.

A little Japanese village some thirty miles from the town of Kumamoto is situated in the center of a volcano, which may some day become active. The village, lying 900 feet below the top of the volcano, the walls of which are very steep, is quite hidden. Its 2,000 inhabitants seldom leave this place.

Water power is easily available in Eastern Nicaragua, the country being little more than a network of rivers and their tributaries. The climate, although not unhealthy, is rainy almost throughout the year, and there is no fear of sudden drought causing the rivers to run dry, as in so many other subtropical regions.

Stepped Against a Hot Stove.

A child of Mrs. Geo. T. Benson, when getting his usual Saturday night bath, stepped back against a hot stove which burned him severely. The child was in great agony and his mother could do nothing to pacify him. Remembering that she had a bottle of Chamberlain's Pain Balm in the house, she thought she would try it. In less than half an hour after applying it the child was quiet and asleep, and in less than two weeks was well. Mrs. Benson is a well known resident of Keller, Va. Pain Balm is an antiseptic liniment and especially valuable for burns, cuts, bruises and sprains. For sale by J. Jas. Wood & Son.

Dr. R. E. Markham was called to Augusta Tuesday evening by the illness of Mrs. J. R. Wilson.

The Rev. H. J. Derthick of Berea will deliver an address this evening, beginning at 7:30 o'clock, at the Christian Church on "The Mountain Problem." Rev. Derthick has spent several years working in the mountains, and has many interesting experiences to relate. He is an entertaining speaker, and the public is invited to hear him.

It is a matter of sincere regret that the Opera-house was not filled with people last evening to see the performance of "The Professor's Love Story." It may be that the appearance of Miss Helen Grantly on Monday night was the cause of the small audience of last night but, however, Mr. Harry Beresford deserved a full house for the excellent company he had here. His own droll character as Professor Goodwillie was admirable as was also Miss Batchelor as Lucy White, and with their fine support the performance throughout was all that could be desired. Should Mr. Beresford ever pay Maysville another visit it is hoped that his next audience will pay up in numbers what was missing last night.

BRADFORD—RIGGEN.
Mr. Joseph Bradford of Lewis county and Miss Susan A. Riggen of Plumville were married yesterday in the East End.

Their many friends join in congratulations in advance for their future happiness.

At Nice, France, the police have arrested four Anarchists who are suspected of the intention of waylaying the King of Italy on his return from England. The police are alarmed at the activity of Anarchists. This has been the second arrest of Anarchists suspected of plotting to kill King Victor Emmanuel. All known Anarchists are under surveillance. A dispatch to The Paris Patrie from Legnano, Switzerland, announces that an Anarchist has surrendered to the police there and has confessed that he had been selected to kill President Deucher of Switzerland, but that his courage failed him. At Milan three Anarchists are under arrest charged with being implicated in the plot.

The Chicago City Railway Company has effected plans for opening three more of its trunk lines before the close of the week. The general plan of procedure drawn up by the police and the management provides for the starting of the Indiana avenue electric cars, the Halsted street and the State street cable trains. Passengers have begun to take the Wentworth avenue cars in such large numbers that the police no longer fear riots along this right of way. Within a few days a similar condition is expected in Cottage Grove avenue. Little or no trouble is looked for in Indiana avenue, but the management of the Company dreads the effect of sending out cars in Halsted and State streets.

It is learned at Washington that the situation at Bogota has assumed a critical phase as far as relations between the United States and Colombia are concerned. Minister Beaupre on the 16th instant was pressed strongly by the Colombian Government to know whether the United States intended to recognize the new Republic of Panama. It is understood that the request was in such shape as to constitute a menace in the event that the recognition had been extended. Mr. Beaupre was instructed by this Government to again inform the Colombian Government that such recognition had been extended to the new Republic of Panama by the United States, but simply in the interest of humanity and civilization and in execution of solemn treaty obligations binding upon the United States. He also was instructed to tender to the Colombian Government the good offices of the United States to effect a settlement of the difficulties between Colombia and Panama.

Cured of Piles After 40 Years.
Mr. C. Hauey of Geneva, O., had the piles for 40 years. Doctors and dollars could do him no lasting good. Dr. Witt's Witch Hazel Salve cured him permanently. Invaluable for cuts, burns, bruises, sprains, lacerations, eczema, tetter, salt rheum, and all other skin diseases. "MACBETH."
A rich and rare treat is offered to intelligent theater-goers on Thanksgiving evening, November 26th at the Opera-house on which occasion John M. Hickey presents the romantic actor, John Griffith, in a grand production of "Macbeth." "Macbeth" will be produced with every attention to detail. A famous writer declares that "Macbeth" was the kind of character which is most liable to be influenced by a belief in supernatural agencies,—a man who is acutely sensitive to all impressions; who has a resistless imagination more powerful than his will; who sees daggers in the air and ghosts in the banquet hall; who has the moral weakness and physical courage, and who alternates perpetually between terror and daring,—a trembler when opposed by his conscience, and a warrior when defied by his foe.

There will be a boat up tonight for Pomeroy. The Lizzie Bay passed up last night for Pomeroy.

Captain James Ester, a pioneer riverman, died at Evansville Tuesday.

It is now thought that navigation will be fully resumed along the Ohio river by Monday.

Work on the ice piers will have to be abandoned as soon as the big rise coming strikes here.

The rise which is coming in the river will allow of the Avalon going to Cincinnati from Parkersburg, where she has been on the docks. She will go back in the Memphis trade. The rise will also allow the Sunshine and the Levi J. Workum, which are on the Queen City Marine Ways, to go into the water, so that those boats can resume their places in the Madison trade. They will be let off next Monday, when the crest of the Pittsburgh rise reaches that port. After they are off the Florence Marmet will be pulled out to have repairs made on her hull, which was torn when she ran ashore a few weeks ago above Stewart's Landing.

A fleet of 18 steamers, towing 5,000,000 bushels of coal, loaded in 143 coalboats, 70 barges, 10 light boats, 5 square coalboats and 2 model barges, left Pittsburgh Tuesday. The indications are that about 12 feet of water will be reached. Heavy rainfalls are reported from the up-river points of the Alleghany, and the Monongahela rivers will also add considerable to swell the Ohio. Rivermen welcome the reopening of navigation. Hundreds started to work, and many more were employed for the trips. There are about 20,000,000 bushels of coal loaded in the Pittsburgh harbor and pools. Several steamers are hurrying in to get tows to go out on this rise.

The Best Remedy for Croup.
From the Atchison (Kan.) Daily Globe.
This is the season when the woman who knows the best remedies for croup is in demand in every neighborhood. One of the most terrible things in the world is to be awakened in the middle of the night by a whoop from one of the children. The croup remedies are almost sure to be lost, in case of croup, as a revolver is sure to be lost in case of burglars. There used to be an old-fashioned remedy for croup, known as hive syrup and told, but some modern mothers say that Chamberlain's Cough Remedy is better, and does not cost so much. It causes the patient to "throw up the phlegm" quicker, and gives relief in a shorter time. Give this remedy as soon as the croupy cough appears and it will prevent the attack. It never fails and is pleasant and safe to take. For sale by J. Jas. Wood & Son.

That old copybook maxim finds its most forcible application in the waste of vitality, which is called "burning the candle at both ends." A woman is often tempted beyond her strength by domestic or social demands. Some day she awakens from this waste of strength to the woeful want of it. She has become weak, nervous and miserable.

For weak, nervous, run-down women, there is no better tonic and nerve than Dr. Pierce's Favorite Prescription. It restores the appetite, quiets the nerves and gives refreshing sleep. It cures local diseases peculiarly womanly which undermine the general health. It makes weak women strong, sick women well.

"No doubt you have forgotten me, but after you read my letter you will remember me," writes Mrs. Annie E. Moring, of 235 7th Avenue, S. W., Roanoke, Va. "In the year 1897, I wrote to you for advice, which you gave me free of charge. When I wrote to you I was a wreck; I could not walk straight for pains in my abdomen; could not sit down, lie down, or get any case at all. I had what was called the best doctor here, but did not get any better until I went through a course of your medicine. I took eight bottles each of 'Favorite Prescription' and 'Golden Medical Discovery,' and ten bottles of the 'Pleasant Pellets.' I tell you the medicine made a cure of me."

Weak and sick women are invited to consult Dr. Pierce, by letter, free. All correspondence is held as strictly private. Address Dr. R. V. Pierce, Buffalo, N. Y. Dr. Pierce's Pellets cure biliousness.

CLIMATIC CURES.
The influence of climatic conditions in the cure of consumption is very much overdrawn. The poor patient, and the rich patient, too, can do much better at home by proper attention to food digestion and a regular use of German Syrup. Free expectoration in the morning is made certain by German Syrup; so is a good night's rest and the absence of that weakening cough and debilitating night sweat. Restless nights and the exhaustion due to coughing, the greatest danger and dread of the consumptive, can be prevented or stopped by taking German Syrup liberally and regularly. Should you be able to go to a warmer climate, you will find that of the thousands of consumptives there, the few who are benefited and regain strength are those who use German Syrup. Trial bottles, 25c; regular size, 75c. At Henry W. Ray's, next door to Postoffice.

E. L. Wilson, aged about 45 years and a resident of Forest avenue, was fined in Squire Grant's Court Tuesday for mistreating his young wife. It is not always best to be an old man's darling—at least, it seems to be so in this case. But then it is said the old gentleman claims cause and provocation for his action, and he is entitled to be given the benefit of the doubt in the disagreement as to what is what.

A Remarkable Case.
One of the most remarkable cases of a cold, deep-seated in the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I ran down in weight from 148 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength." Sold by J. Jas. Wood & Son, Druggists.

Important News for Wrap Customers. A \$10 Wrap for \$5. Sounds Like a Fairy Tale, But it is True.

Most dealers buy their wraps from drummers in the summer time. We buy ours direct from the makers late in the season when the manufacturers want to get rid of what they have. That is the reason we can make you this offer. Come and look at them. They are made of very fine Black Wool Cheviot, new style cape, military shoulders, the latest style, & length.
